

Wednesday – le, al or el?

When to use le

Rule: This way is the most commonly out of le, al and el. If the letter before the le/al/le is an ascender (tall letter) or a descender and goes under the line then normally we would use this le.

Words to copy – Remember to repeat each word right across the line in neatest handwriting!

★ Can you work out the words shown by these pictures and use the correct le to spell them correctly?
