

Hello everyone,

I was delighted to see so many children enjoying after school clubs again this week. Boxing and circus skills have been particularly popular and we will try to run these again in September, so that other children can have a turn.

A reminder too that 'More 4 Kids', our after school childcare provision, also runs every day. This is particularly useful if you need to collect your child later on - the club runs up until 6pm every day. There is a charge of £8 per session for the club, but you can claim much of this back through tax credits if you are studying or working. If you would like to know more, please speak to Ruth or Fatoumata who would be pleased to arrange a visit for you.

There have been some lovely pictures on Twitter this week, including family swim photos, Year 2 news and some lovely tweets from our family trip to 'We The Curious' today. Please do have a look!

Have a lovely weekend,

Sue Ramsay,
Headteacher.

**School's
Closed!**

THURSDAY 23 MAY

European elections

Reception: D'lion and Mikel

Year 1: Maid and Mohamed A

Year 2: Jasmine and Halimo

Year 3: Khalid and Tegan

Year 4: Subaida and Mahamed S

light meal included!!

Did you know that if you are receiving
Child Tax Credits or Universal Credit, then
you could claim up to 70-85% of the
childcare cost back!

What have we been learning?

Reception.... On Monday we went on a minibeast hunt! We learnt about where minibeasts live. We looked on the trees, in the grass and under rocks. We found slugs, worms and woodlice. As mathematicians we learnt to double and half amounts. **At home, search for minibeasts in your garden or at the park. Look closely and talk about what you notice. Give your child a small number of objects. Can they tell you how many double or half that amount is?**

Year 1... we have been using positional language in Maths. We wrote directions and played games where we directed partners using forward, backward, clockwise and anticlockwise. We also enjoyed writing our own stories using our own ideas and had lots of fun in topic carrying out a science investigation. **At home, read with your child and asking them to predict what might happen.**

Year 2...in English the children really showed off their writing skills by writing their own story based on The Tin Forest. As mathematicians they have been looking at statistics and creating their own tally charts and pictograms based on data they have collected. **At home, please read with your child every day and practise their times tables with them.**

Year 3... we have been working really hard on our performance ready for next week! As mathematicians we have been learning how to read weighing scales and as writers we have been writing from the perspective of different characters from our book **At home, encourage your child to complete their times tables, reading daily together and helping them practise for our performance!**

Year 4... Mr Rosetti called us PE superstars this week because both classes were so brilliant in our PE lessons! We also had our last swimming lesson for this year, we have all improved so much and our teachers are very impressed! **At home, help your child to practise their times tables to 12!**

Year 5... In English, we started planning our information posters about St Pauls Carnival – We interviewed Ms Sokoni to gather more information. In maths, we worked hard on converting metric and imperial units of measure such as g, kg, mm, cm, m, km, l, ml, inches, pounds and pints. In Enquiry, we started our carnival dance workshops which we really enjoyed! **At home, practise spellings from the year 5 spelling list.**

Year 6... The children have worked very hard during the SATs week this week! We are incredibly proud of our Year 6s and their amazing hard work. We have also been creating some wonderful graffiti art using the skills we have learnt this term, which the children have really enjoyed. **At home, let them rest this weekend – they thoroughly deserve it!**
