

1. Write four number sentences about this bar model in your book.

700	
200	500

2. Complete these number sentences **in your book**.

a) $300 + 400 = \underline{\quad}$

c) $600 = 200 + \underline{\quad}$

b) $\underline{\quad} = 800 - 300$

d) $500 - 200 = \underline{\quad}$

3. Complete these number sentences **in your book**.

a) $453 + 400 = \underline{\quad}$

c) $625 = 200 + \underline{\quad}$

b) $\underline{\quad} = 862 - 300$

d) $476 - 200 = \underline{\quad}$

4. Which is the odd one out? Explain your answer in your book.

I think *is the odd one out because* ...

5. Complete these number sentences **in your book**.

a) $453 + 20 = \underline{\quad}$

c) $326 = 300 + \underline{\quad}$

b) $\underline{\quad} = 862 - 30$

d) $476 - 20 = \underline{\quad}$

The answer is 800.

Find five different ways of adding or subtracting multiples of 100 to make 800.

If I know $600 + 200 = 800$, what else do I know?

How many linked facts (both adding and subtracting) can you write down in your book?
