Symmetric figures

[GOOGLE Maths Mansion on reflection](#) Watch this explanation video!

Copy and complete these shapes according to the line of symmetry, in your book.

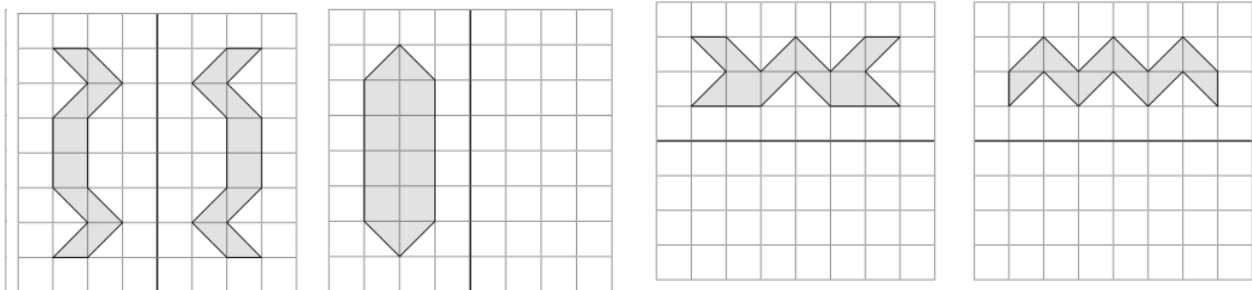

1.

[GOOGLE Top Marks symmetry matching](#)

It's an interactive game for you to use to practice your reflective symmetry skills.

2. Carefully copy these shapes into your book. Counting the squares could help you to draw these shapes and their reflections accurately. The first one is done for you.

CHALLENGE: How many different symmetrical shapes can you create using the given sides?
