CHALLENGE

Laura tried to draw different pictures to show this sentence:

2 equal groups with 3 in each group.
2 lots of 3.

What mistake has she made? Circle it.
Her mistake is...

What should she have drawn?

---

Read this word problem and work out the answer.

Level 2

Jamal starts with 6 equal bags of 5 apples.

He shares some with his friends.

She gives 3 lots of 2 to Martin and 1 group of 4 to Faith.

How many does he have left?

Can you find and make an equal groups sentence to describe the number left?

How many different ways can you represent this sentence?

Level 3

2 lots of 10.

Use a range of other words, different resources, different pictures and number sentences.
