

Can you make arrays with your resources and work out the answer to each of these number sentences:

$4 \times 5 = \underline{\hspace{2cm}}$

$2 \times 8 = \underline{\hspace{2cm}}$

$9 \times 2 = \underline{\hspace{2cm}}$

$3 \times 6 = \underline{\hspace{2cm}}$

$2 \times 4 = \underline{\hspace{2cm}}$

$7 \times 3 = \underline{\hspace{2cm}}$

$5 \times 5 = \underline{\hspace{2cm}}$

$2 \times 3 = \underline{\hspace{2cm}}$

Challenge: What arrays can you make and what multiplication number sentence is represented?
