

## Monday answers – 2 step questions

### Example:

I have 4 packs of oreos with 5 oreos in each pack.

I then eat 2.

$$4 \times 5 = 20$$

$$20 - 2 = 18$$

How many oreos do I have left? **18 oreos left**

1. Miss Ellison-Smith has 6 piles of books. Each pile has 10 books in.  
She then loses 3 books.

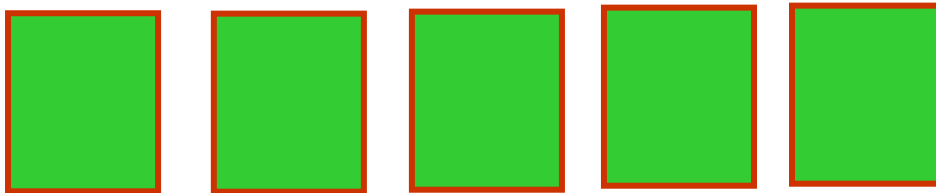

$$6 \times 10 = 60$$

$$60 - 3 = 57$$

How many books does she have left? **57 books**

2. A farmer shares 30 of his cows into 5 fields

$$30 \div 5 = 6$$

$$6 + 1 = 7$$

He then add 1 more cow to each field. How many cows are in each field? **7 cows**

3. I go to the shop and buys 2 bunches of grapes and 3 pies.  
How much money do I spend altogether? **£23**

$$2 \times 4 = 8$$

$$3 \times 5 = 15$$

$$15 + 8 = 23$$

4. A squirrel has 48 nuts but eats 8 of them.  
He then puts 10 nuts in each hole.

$$48 - 8 = 40$$

$$40 \div 10 = 4$$

How many holes does he need? **4 holes**

5. Mr Rosetti has 9 footballs. He then finds 5 more.  
He shares all the footballs between 2 children.

$$9 + 5 = 14$$

$$14 \div 2 = 7$$

How many footballs do they get each? **7 footballs**
