

Thursday

Once you have looked at the examples above, fill in the blanks in these sentence stems to describe the pictures

12 has been grouped into 2 s

There are 6 equal groups.

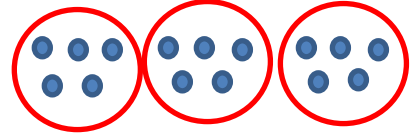

$$12 \div 2 = 6$$

9 has been grouped into 3 s

There are 3 equal groups.

$$9 \div 3 = 3$$

15 has been grouped into 5s

There are 3 equal groups.

$$15 \div 5 = 3$$

Now have a go working out the answers to these questions by grouping:

a) $12 \div 4 = 3$

b) $15 \div 3 = 5$

c) $18 \div 9 = 2$

d) $21 \div 7 = 3$

e) $24 \div 6 = 4$

I have 30 counters. How many different ways could they be equally grouped?

There are 6 possible answers. How many can you find? It may help to find 30 objects e.g. pasta pieces and practically work out how they could be grouped in 2s, 3s, 4s etc. . .

There could be _____ groups of _____

10 groups of 3

3 groups of 10

6 groups of 5

5 groups of 6

2 groups of 15

15 groups of 2
