English

Lockdown is long ...and can be boring! Having schools closed makes life very different and lots of people are using technology more: smart phones, tablets etc!

Today we want you to design your own app!
Think about what people might need or want to be able to do during lockdown. Think about what apps are already out there and how you can make yours better than them or how you can make an app that does something none of them already do!

Here's a template which you can draw out in your book. You can lay it out differently but you must have a box for each of these things (below).

BONUS CLASS DOJO POINTS FOR CREATIVITY!
