1   Use these numbers and the number line to help complete
the sentences below.

| 27 | 61 | 49 | 83 |

```
├──┼──┼──┼──┼──┼──┼──┼──┼──┼──┼──┼──┼──┼──┼──┤
20    30    40    50    60    70    80    90
```
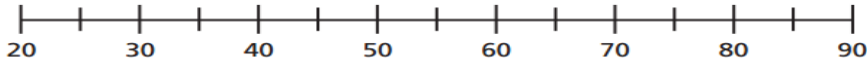

49 is closer to 50 than 40
27 is closer to 30 than 20
83 is closer to 80 than 90
61 is closer to 60 than 70

2   Where do these numbers go on the number line?

| 2.7 | 6.1 | 4.9 | 8.3 |

```
├──┼──┼──┼──┼──┼──┼──┼──┼──┼──┼──┼──┼──┼──┤
2     3     4     5     6     7     8     9
```
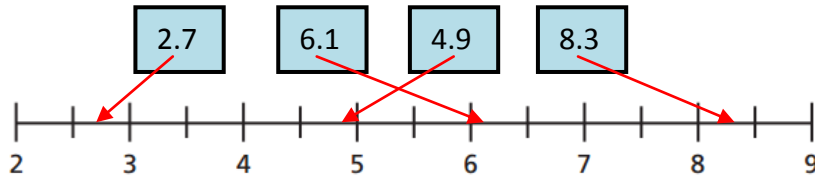

Now use the numbers to complete these sentences

4.9 is closer to 5 than 4
2.7 is closer to 3 than 2
8.3 is closer to 8 than 9
6.1 is closer to 6 than 7

3   What whole numbers (integers) do these decimal numbers lie between?
(The first one has been done)

$$14 < 14.8 < 15$$
$$1 < 1.4 < 2$$
$$65 < 65.3 \quad 66$$
$$0 < 0.7 < 1$$
$$98 < 98.6 < 99$$

4   Now complete these number sentences. The first one has been done.

14.8 is closer to 15 than 14
1.4 is closer to 1 than 2
65.3 is closer to 65 than 66
0.7 is closer to 1 than 0
98.6 is closer to 99 than 98
