

Mrs W's Maths 21  
Perimeter of rectangles part 1

*REMEMBER perimeter is the distance around the edge of a 2D shape. We can find it by adding up the lengths of all the sides.*

1 Work out the perimeter of these rectangles

$$\square \text{ cm} + \square \text{ cm} + \square \text{ cm} + \square \text{ cm} = \square \text{ cm}$$

$$\square \text{ cm} + \square \text{ cm} + \square \text{ cm} + \square \text{ cm} = \square \text{ cm}$$

2 Work out the perimeter of these rectangles

a)

b)

c)

d)
