English

Task 1

Watch this video and answer the following questions about it.

<https://www.bbc.co.uk/bitesize/topics/zshp34j/articles/z6m7vk7>

1. What does she do instead of buying plastic bottles?
She re-uses her bottle over and over again.
2. What does it mean to be **sustainable**?
Being sustainable means living without making waste. For example, buying things without plastic wrapping and more.
3. What does it mean if something is a 'single use plastic'?
It means it can only be used once and then it needs to be thrown away.
4. Why is it a problem if things don't get recycled?
Because plastic doesn't rot or biodegrade.
5. Decomposing means **breaking down naturally and eventually disappearing**.
How long does it take a plastic bag to decompose?
It can take hundreds of years to decompose.
