

Thursday – 10 to and 5 to

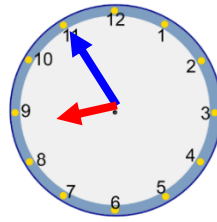

When the **minute hand** (longer hand) is pointing to the 10 it means 10 to.

When the **minute hand** is pointing to the 11 it means 5 to.

At 5 to and 10 to the **hour hand** (shorter hand) is nearly at the next hour.

10 to
Minute hand is on the 10.
Hour hand is nearly at the 9.
The time is 10 to 9.

5 to
Minute hand is on the 11.
Hour hand is nearly to the 9.
The time is 5 to 9.

1. Can you complete the sentence?

The minute hand is on the 11.
The hour hand is going to the 5.
The time is 5 to 5.

2. Can you write the times that these clocks are showing?

10 to 4

5 to 1

quarter to 10

3. Sally started eating her apple at quarter to 3. It took her five minutes.

What time did she finish eating her apple? 10 to 3

4. Which time is the odd one out? Why? 5 to 4 is the odd one out because the other times are 10 to
OR 10 to 9 is the odd one out because the others times are going to 4.
