

Tuesday

Example:

There is 3 in each group ---->
There are 5 groups

$$3 + 3 + 3 + 3 + 3$$

There are 5 lots of 3 so the multiplication sentence is 5×3

What 2 number sentences are represented in each of these pictures?

$$5 + 5 + 5$$

$$\underline{\quad} \times \underline{\quad}$$

$$\underline{\quad} + \underline{\quad}$$

$$\underline{\quad} \times \underline{\quad}$$

$$\underline{\quad} + \underline{\quad} + \underline{\quad} + \underline{\quad}$$

$$\underline{\quad} \times \underline{\quad}$$

Now try these yourself:

Write these repeated addition number sentences as multiplication sentences:

$$3 + 3 + 3 + 3 = \underline{\quad} \times \underline{\quad}$$

$$2 + 2 + 2 + 2 + 2 = \underline{\quad} \times \underline{\quad}$$

$$6 + 6 = \underline{\quad} \times \underline{\quad}$$

$$4 + 4 + 4 + 4 = \underline{\quad} \times \underline{\quad}$$

Which number sentence is incorrect? Why? I think $\underline{\quad}$ is incorrect because

a) 4×2

b) 2×4

c) $4 + 4$

d) $2 + 2$
