

## Wednesday – Non-Chronological Report

Today you are going to answer questions about an animal. You are then going to use these answers to write your own non-chronological report on Thursday and Friday.

You can choose to do it on a tiger, a dolphin, a crocodile or choose your own animal and research using books and the internet. You must choose just **one** animal to do it on.

### Where does it live?

What continent does it live in?

What habitat does it live in – savannah, forest, desert, tundra or underwater?

What is the habitat like?

### What it look like?

Does it have scales or fur?

What colour is it? Does it have a pattern? Is it camouflaged?

What is its face like?

What is its body like?

### What does it eat?

Is it a carnivore (eats meat), herbivore (eats plants) or omnivore (eats meat and plants)?

What different food does it eat?

If it is a carnivore or omnivore how does it hunt?

### Who hunts it?

Does it get eaten by any other animals?

How does it defend itself? Does it hide or attack them?

What weapons does it have to defend itself?

Does it get hunted by humans at all?

### Fun fact!

What fun fact do you know about the animal?
