

Remember:

$$\begin{array}{l} \underline{\quad} + 2 = 5 \\ 2 + \underline{\quad} = 5 \\ 5 - \underline{\quad} = 2 \end{array} \left. \begin{array}{l} \text{Take away!} \\ \rightarrow 5 - 2 = 1 \end{array} \right\}$$
$$\underline{\quad} - 2 = 3 \rightarrow \begin{array}{l} \text{Add!} \\ 2 + 3 = 5 \end{array}$$

$$2 + 5 = 7$$

$$6 - 3 = 3$$

$$7 - 6 = 1$$

$$10 + 10 = 20$$

$$90 - 60 = 30$$

$$45 + 35 = 80$$

$$72 - 9 = 63$$

$$43 + 54 = 97$$

I think the missing number is 30. What mistake have I made?

$$70 - 20 = 50$$

The mistake is I did $50 - 20$ and I should have done $50 + 20$ to get 70.
