

Wednesday 10th June - Maths

1. Complete the table by writing what should go in the boxes in your book.

| Representation | Words | Fraction | Decimal |
|--|----------|----------------|---------|
|  | 1 tenth | a) | 0.1 |
|  | b) | $\frac{7}{10}$ | c) |
|  | d) | e) | 0.3 |
|  | 5 tenths | f) | g) |

2. What decimal numbers are shown by these counters?

3. What decimal number are the arrows pointing to?

★ Can you also write each decimal as a fraction?

4. Put these fractions, decimals and words in order from smallest to biggest:

| | | | | | |
|------------|----------------|-----|-----------|-----|----------------|
| Two tenths | $\frac{9}{10}$ | 0.7 | One whole | 0.4 | $\frac{1}{10}$ |
|------------|----------------|-----|-----------|-----|----------------|

Jakob places all these counters somewhere on the grid.
 List all the possible numbers he could be representing.
